

H2H Network

Tigray support package II

The H2H Network has activated its fund to keep strengthening the humanitarian response in the Tigray region of Ethiopia and neighbouring Sudan. Three specialized H2H member agencies will support multilateral processes with technical services, tools and products; including security incident data analysis, nutrition assessment and capacity building, and community engagement and accountability (CEA) surge support. The H2H Tigray support package II is now fully operational and project activities will be completed by end of August 2021.

As part of the funded package, services are freely available to all responders.

The network and its fund are supported by UK aid from the UK government. The network is hosted by the Danish Refugee Council.

H2H Network Tigray support package II

Three member agencies specializing in communications and community engagement, quality and sector professionalization, and security, logistics and programme support, will support and inform the wider humanitarian response. For further information, contact info@h2hnetwork.org.

Who?	What and where?	Contact
CDAC Network	Responding to the urgent need of service providers and working groups requiring support for better community engagement and accountability (CEA) coordination in Sudan's Tigray refugee response. Enhancing coordination efforts in CEA and providing a community engagement training with common set of tools for all refugee response actors.	FanMan Tsang fanman.tsang@cdacnetwork.org Judith Hall judith.hall@cdacnetwork.org
The Global Nutrition Cluster (GNC) Technical Alliance's Technical Support Team	Working with the Nutrition Information Working Group (NIWG) to produce high quality nutrition data and build the capacity of partners to assess the nutrition situation in the Tigray region of Ethiopia.	Alexandra Humphreys ahumphreys@actioncontrelafaim.ca
Insecurity Insight	Supporting data sharing and analysis of security incidents from partner agencies active in Ethiopia. Making insights available for the whole aid sector in the form of situation analysis and direct access to data.	Christina Wille christina.Wille@insecurityinsight.org

H2H Network

Getting more to people in need

At H2H Network we work to improve the effectiveness and efficiency of humanitarian action.

We assess humanitarian crises to define the type of response needed. We then coordinate specific network members to quickly provide relevant services to the humanitarian crisis. The network's services are easily accessible to all responders.

We have responded to crises including Nagorno-Karabakh, Covid-19, Cyclone Idai, Ebola in DRC and internal displacement in Burkina Faso.

H2H Network members are expert and independent.

Together we help the humanitarian sector evolve and cope with the changing scale and nature of humanitarian crises. We address sector-wide issues including the collection, management and analysis of data, community engagement, security management, logistics, accountability, standards and localization.
